भारत के उप-राष्ट्रपति का सचिवालय
SECRETARIAT OF THE VICE-PRESIDENT OF INDIA
नई दिल्ली - 110001 (भारत)
NEW DELHI - 110001 (INDIA)

No.VPS-55/RTI-41/2024-2025

13th November, 2024

To,

Dr. J.C. Mehta,
108, Sector 23-A,
Chandigarh - 160023.

Subject: Information under Right to Information Act, 2005.

Sir,

Please refer to your RTI application dated October 31, 2024, received to this secretariat on November 09, 2024, seeking information about NHHA NH.

2. It is to convey that this Secretariat does not hold any "information", as defined under section 2(f) of the R.T.I. Act, 2005, relevant to your queries, and hence the information may be treated as "NIL".
3. The applicant may kindly note that as per Hon'ble CIC's Order No. CIC/SA/A/2016/001483 dated 01.08.2016, there is no obligation to transfer RTI applications received by this Secretariat from educated persons on issues unrelated to this office.
4. In case you are not satisfied with this reply, you may prefer the First Appeal to Mr. Abhyuday Singh Shekhawat, Officer on Special Duty/First Appellate Authority, Vice-President's Secretariat, 108, Church Road, New Delhi-110001, within 30 days of receiving this reply.

Yours faithfully,

(Sarita Chaudhary)

When health infrastructure is developed, it not only improves the health service, it also creates a complete employment environment. Doctors, paramedics, labs, pharmacies, cleanliness, offices, travel and transport, food outlets and other such jobs will be created. We have seen that if a big hospital is built, then a whole city settles around it, which becomes the centre of livelihood for the activities related to the hospital. It becomes the centre of great economic activity.

the way ahead as 100 days agenda of PM Modi 3 Govt)

After compliments. Doctors Day 1.7.2024 & Greetings

Honble st. J.P. Nadda, Esteemed HFM

1. 'Hospital Engineering' as interdisciplinary speciality was pioneered in PGI Chandigarh on 12.12.1969: first in SE Asia. Exceptional growth it's Model in PGI was recognised as BEST for developing countries in 1981 (WHO offset publication no 72 from Geneva in 4th vol out of 7 vols under Public Health Series) can loan as evidence & copy supplied to PGI.

2. Brain child / innovation of late PadmaBhushan Dr. M. S. Randhawa ICS, Dr. P. N. Chuutani, Er. P.L.Verma and Ar. M. N. Sharma (last 2 winner of French Awards equal NOBLE)

3. In 1972 a national working group and in 2006 again a national experts committee appointed by MOHFW recommended start of 2 nos master level interdisciplinary programmes in Health Architecture & Engineering: first in SE Asia, developing and G20 countries : first as ON LINE in world (with potentiality to earn crores of Rs. & consultancy), applauded by WHO, IFHE (London) in its Digests of 2010 & 2011 with photos of PGI.

4. After holding 15 meetings / exchanges clarifying all aspects / myths assuring full support from 5 nos 5 star technical universities in meetings called by JS of MOHFW (all minutes with PGI & MOHFW and can be produced again) offering full helps to PGI but regretting lack of infrastructure & suitable faculty to start in their own Institutes/universities

5. PGI was firmly asked on 27.5.2008 to start being 5 star university of eminence assuring 100% financial support (Rs. 3/4 crores / yr now) as autonomous centre of excellence but under all controls of PGI. Also because PGI had been already running similar programmes as MHA & MPH with exactly similar eligibility rather wider including Ayush, veterinary, allied health sciences thus experts suitable to design Vet. daives, Ayush

6. Even Approval of AICTE, COA was granted to PGI to start being most suitable with highly qualified medical faculty whose participation is MUST, vast Hospital buildings, research centres, specialist laboratories, 61 HEP services & infrastructure, crores worth of equipments, laundry, CSSD, boilers, medical gases, biggest workshop (5 times bigger than of AIIMS -D), Fire engg., Equipment manufacturers support for training & CSR. Also offer of UT and corporate hospitals in region was ensured including un-comparable senior visiting faculty from regional chapters of professional societies representing nearly ONE MILLION members of all. Also PGI has not appreciated that these P.hd / M.tech / MD or MS / M.Plan / M.Arch field experts including PGI retired doctors will be boon to PGI and guide to PGI own Hospital Engineering & Planning Department as they all love

♥ PGI Major General M. S. Kandal, Paton IHE after a year follow up collected their offers and all their written offer given to Director PGI. CAREERS OF THOUSANDS OF STUDENTS AS ALREADY BEEN RUINED / HARMED since 2008 till date and this delay for world wide demand by Indian young professionals of various disciplines is growing into Minor Fiasco like that of NEET ? ??? ± loss int'l reputation of PM Modi Govt.

6

8. MIS REPRESENTATIONS & ILLEGALITIES BY PGI

(a) PGI carried agendas to SFC directly in its meetings of 9.4.2021 & 12.3.2024 without prior recommendations of Statutory Academic Committee : a legal & procedural need. Honble Secretaries as Chair of of these 2 SFC should have refused to consider the agenda as 2 predecessors had done earlier. Minutes are thus invalid & be rejected.

(b) In any case minutes of both SFC meetings are illegal, factually WRONG, DISTORTIONS, IGNORANCE, LACK OF ATTAMVISHVAS and our 20 representations challenging

with facts till today have not been presented to SFC though copied to MOHFW & SFC members.
(c) IHE is official biggest Stake holder out of 3 in the office order of order of expert committee in 2006 and latter for Follow up Committee. 90% research & documentation has been done by IHE and repeatedly presented to PGI & MOHFW through 300-500 typed pages: all at our huge costs (I worked alone and spent Rs. 40 lakhs but no regrets just for love & passion) But action of ignoring stake holders is against PM Modi spirit ??? Even courtesy of inviting SPA-D has not been shown who visited PGI 3 times offering all helps : SPA -D oldest ,GOI has international respect. Honble present Director walked out after 15 minutes after looking at 5 documents out of 40 on 11.9.2023 and his EX - DDA ignored presenting my 2 important notes to SFC .. my first ever meeting in their tenure ???

9. Only contribution of PGI administration in 16 years is to create hurdles. PGI attempt in SFC of 9.4.2021 after 13.5 years was to throw out its baby viz NIHEA / NIH after keeping it in boiling water and in SFC of 12.3.2024. In SFC of 12.3.2024, PGI repeated for nth time that NIHEA is not within mandate of CORE mandate of Institute. Hope PM Modi is not listening who from 2014 has been impressing break such petty barriers of rules which Infact already stands broken by starting Dental, Nursing courses which were earlier not in *core* mandate. JS in 2008 had assured he will arrange HE President approval and "PGI should advertise admissions in anticipation in letter of 27.5.2008". Infact Director & DDA in 2007 have admitted approval can be sought but till date have NOT APPLIED to MOH. PGI Act allows even Humanity courses can be allowed and all others covering health activities which are all covered under HEP In both SFC wrong tactics were followed by diverting unnecessarily to AIIMS + IIT Udaipur B.Tech model in SFC of 9.4.2021 and in SFC of 12.3.2024 to ask IIT Ropar and CCA Chandigarh to start. Obviously Honble Director had no preliminary information that both are not currently qualified as they do not have faculty in Urban Planning, Urban Design and Advance construction management etc. Also PEC. Infact after realising complexities PEC and CCA had withdrawn their offer of 2016 in 2019 conveyed to PGI in mail of 2.2.2020 firmly advising PGI by our Patron Major General M. S. Kandal to start a new academic department. Wish Honble Dr. Vivek Lal had listened to me on 11.4.2023 ??? IIT -R Involves daily journey of 50 kms one side by faculty or 40 students? Etc Etc

10. BEG THE SIMPLEST & BEST SET UP IN COUNTRY UNDER NEP-20/ NRF AND RARE IN WORLD IS Joint degrees under one roof by 3 first class, internationally famous is PGI + PU + SPA-D to be facilitated by MOHFW & IHE Request very urgent !! meeting among all above heads of 3 by JS or/ and Director and decide scope of MOU. Infact Director could have done much earlier as Academic committee in 2014 had approved Honble Esteemed Shri J. P. Nadda, new HFM : it is welcome back from your first tenure as HFM. This knowledge project cannot be issue of any politics between new NDA and I.N.D.I.A. This project of Rs 3/4 crore per year is a GIFT from ExPM Dr. Manmohan Singh ji and present PM Shri Narendra Modi. LET US PROVE TO WORLD THAT BOTH RESPECT & CAN WORK TOGETHER Sir Leave to your wisdom to advise Dr. Vivek Lal on above lines. SFC is committed to enquote from minutes of SFC of 9.4.2021 "Members opined that Hospital Engineering is specialised field and such courses are needed to be started on priority to train manpower for creation & operation of health infrastructure in country" *but no direction where to start ??? Yes self financing in every capital city of India and ON LINE by PGI + MOHFW for entire world* Also 4/5 regional branches in India in HP, UP, Gujarat, Chennai, Kharagpur, Bangalore" representing different social, religious, metrological, geographical, + each states own research centre as was advised by Honble Member (Health) of NITI AAYOG

Honble Dr. Vivek Lal owes to his Legendary first generation teachers and now his commitment to patients as in press today on Doctors Day

Submitted 
Dr. J. C. Mehta

Age 86 + years from sick bed and accident but willing to come to Delhi if given appointment or beg to call me in Chandigarh while on route to HP: I have tons of documents to show you: will be happy in presence of Honble Vivek Lal as it is he who has energy to start NIHEA: my death for 40 years

Honble V.P.

7

Pl. instruct /achieve NHEA to
forget loss of 16 Years and start

Officer competency model draws from PM's Mann Ki Baat, speeches

AGGAM WALIA
NEW DELHI, OCTOBER 24

THE CAPACITY Building Commission (CBC), constituted by the government three years ago, has developed the Karmayogi Competency Model for civil servants, which is a framework of behavioural and functional competencies designed to aid their transition from a karmachari (employee) to a karmayogi (dedicated worker). Inspired by Prime Minister Narendra Modi's Mann Ki Baat programme and his public

EXPLAINED
Karmachari to karmayogi

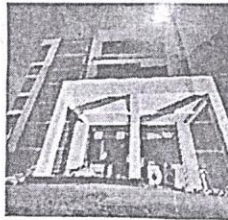

ACCORDING TO THE CBC, it is responding to the Prime Minister's call to build a bureaucracy in which the mindset transitions from feeling and acting like a karmachari or a public servant to behaving like a karmayogi where service is done without any expectation in return.

2017 To 2024 (Shameless) एडवांस न्यूरो साइंस सेंटर: तीसरी बार बदली गई उद्घाटन की डेट

मशीनें-स्टाफ न होने की वजह से मार्च 2025 की नई तारीख

मनीष अग्नेजा | पटना

पंजीआई में बन रहे एडवांस न्यूरो साइंस सेंटर की विलंबता चमकते देखा है। पैकजेट और पैरामिट्रिकल स्टार के अलावा इक्विपमेंट न होने की वजह से यह शुरू नहीं हो पा रहा है। इस वजह से तीसरी बार उद्घाटन की तारीख बदलनी पड़ी है। इसका उद्घाटन सितंबर में होना, लेकिन अब इसके तारीख मार्च 2025 कर दी गई है। इससे पहले पंजीआई प्रबंधन ने 31 अगस्त को इसे शुरू करने की बात बज्जी थी, लेकिन विलंबता का काम पूरा नहीं हुआ था। सेंटर तो तैयार है, लेकिन इसे चलायें के लिए मैनपावर नहीं है। करीब 124 पैकजेट और पैरामिट्रिकल स्टार की भती की जानी है, जिसका प्रस्ताव निर्माता को भेजा हुआ है। यहां से सेंकान नहीं आई है। चूंकि यह देश का पहला 300 बेड एडवांस न्यूरो साइंस सेंटर बनाया जा रहा है, इसलिए निर्माण से घण्टी घण्टी

पंजीआई की यह सबसे ऊंची इमारत है... तीन मंजिल अंतराष्ट्रीय और 7 मंजिल का यह इमारत। इस सेंटर को सबसे खास बात है कि हर फ्लोर पर तीन फायर जेट बनवाए गए हैं। किराए आकर फ्लोर में सेंटर में अगर लगने पर वगैरह 2 घंटे तक अगर एक जैन से दूसरे जैन में नहीं फैलेगी। इन जैन में खोई किट

Officer competency model draws from Mann Ki Baat

speeches and statements, the model aims to optimise deployment of officials to roles based on their competencies, which are also mapped to courses on the Integrated Government Online Training (IGOT) portal.

"We looked at what the PM said. We go by the decisions of the government of the day and what the chief executive talks about. We didn't want to just go by mapping out something. We did a large language model (LLM) analysis of all his Mann Ki Baat episodes, speeches, tweets, etc.," R Balasubramaniam, Member (Human Resource), CBC, said.

The model draws inspiration from four resolutions that "every public official should embody", namely Vikas (development), Sarva (pride), Kartavya (duty) and Ekta (unity), which were all distilled from Prime Minister Modi's speeches as recurring themes, he said.

The model consists of 34 competencies, of which 13 are categorised as 'behavioural' and are further split between 'core'

and 'leadership' competencies. These include self-awareness, personal effectiveness, creativity and innovation, and strategic leadership.

The remaining 21 competencies are categorised as 'functional', which include citizen centricity, policy architecture, digital fluency, financial management and data analytics.

With the role of governance evolving and black swan events increasing, the model has been designed to ensure accountability among civil servants and to enhance performance, citizen-centric and tech-enabled governance, and future readiness.

"The expectation of a civil servant today is no longer like in the past, where you just deliver on schemes and programmes. Today, the PM's call has been to build a bureaucracy in which the mindset transitions from feeling and acting like a karmachari or a public servant to behaving like a karmayogi, where he does service without any expectation in return," Balasubramaniam told The Indian Express.

Soon, government employees will undergo a periodic assessment of their competencies, based on which an algorithm will recommend them courses on IGOT. Completion of courses on IGOT, which are now mapped to competencies, will also be tracked by seniors.

"The moment I finish a course, my certificate gets downloaded and gets tagged to e-HRMS (Human Resource Management System). So I, as the boss of my division, can see all my employees, what competencies they have. I can encourage them to do (courses)," Balasubramaniam said.

Presently, government employees are mandated to complete a minimum of 50 hours of training on IGOT each year.

According to Balasubramaniam, civil servants' competencies assessed through the model will determine the time they will be able to use the IGOT portal to quickly acquire competencies at their job, which could involve a new programme

that requires upskilling.

The Karmayogi Competency Model was developed through primary and secondary research, extensive stakeholder engagement, including representatives from the public and private sectors, academia, and experts in Indian Knowledge Systems, and a process of global benchmarking against competency models developed by Australia, Singapore, and South Korea.

At the moment, the model is for civil servants employed with the Central government and with some states like Andhra Pradesh, Odisha, Maharashtra and Madhya Pradesh that have also signed up.

The CBC was established in April 2021 and is uniquely staffed with representation from the private sector, the civil society, and the IAS. Former McKinsey India head Adil Zainulbhai is its Chairperson, civil society veteran Balasubramaniam is Member (HR) and former CMD of ONGC Alka Mittal is Member (Administration).

NGO Humiliated, PGT's all 6 projects delayed to 2-4 years, patients, research suffering.
1E 25 10. 2024
Prime Minister Narendra Modi with his Spain counterpart Pedro Sanchez at the TASL complex in Vadodra on Monday. ANI
At the inauguration, Tata Sons Chairman N Chandrababu Naidu said 200 engineers from Tata Group are already in Spain undergoing training. He declared that the first aircraft would roll out of the facility "exactly two years later" and urged the Prime Minister to block the date for inauguration.
"The Tata Group is very proud of setting up this advanced facility, which will manufacture the na-

2. Sabotage by PGZ administration by telling
lies to SFC/GB in 21.4.2021 and 12.3.24
3. Entire India and WHO's Dto in Health
Sector in India blocked on delay
4. Patients & students cursing
5. Reporting as MRI submitted to India 2020

5.

Just ADVICE

1. Why can't PGZ run 20 HBA as Health infra
as PGZ + PU + SPA-D as four layers
2. Why is SFC supporting medical experts
to abandon NIHEA & PGZ: a
conspiracy
6. By approval as Biwali Gift CC + HBA
PH and
other

OVER 250 HIRED FROM EXTERNAL AGENCIES INCLUDING THE BIG 4

Rural Development Dept keen to rationalise pay for its consultants

SHYAMLAL YADAV
NEW DELHI, NOVEMBER 2

THE DEPARTMENT of Rural Development, which has taken over 250 consultants on contract, has set up a committee to suggest "measures for rationalisation" of emoluments being paid to them. The committee, chaired by Additional Secretary T K Anil Kumar is expected to submit its report in November, sources told *The Indian Express*. It will "examine the present

emoluments being paid to consultants in different program divisions and suggest measures for rationalisation of such emoluments for the department", the sources said.

The committee was set up following a report submitted by the Indian Institute of Public Administration (IIPA) last year to the Department of Rural Development. An academician involved in the IIPA said, "We have suggested following certain SOPs (Standard Operating

EXPLAINED
E Govt eye on pay, capacity

THE GOVT wants to be sure rules are followed while paying top salaries to consultants from external agencies. At another level, the government is also keen to build human resource capacities within.

• Rural Development Dept

Procedure) while hiring consultants and that the hiring should be in compliance with the GFR (General Financial Rule)."

T K Anil Kumar did not respond to queries sent by *The Indian Express*. Sources said the committee under him comprises eight other members — all are officials of the department or organisations under it.

The 250-plus consultants contracted by the department work under its various schemes such as MNREGA, Mission Antyodaya, National Social Assistance Program, National Rural Infrastructure Development Agency, Rural Housing, National Rural Livelihood Mission, Deen Dayal Upadhyaya Grameen Kaushalya Yojana, and others. Many of these 250-plus come from external agencies including the Big Four consulting firms.

In January this year, *The Indian Express* had reported that at least 1,499 consultants from external agencies, including the Big Four (Ernst & Young, PwC, Deloitte and KPMG), have been taken on board by as many as 44 government departments. Cumulatively, an annual expenditure of Rs 302 crore is incurred on these consultants, data obtained by *The Indian Express* under the Right to Information Act had revealed.

An official from the Union Finance Ministry, which clears the budget for all departments said, "There is huge discrepancy in payments being made to consultants in various departments. At times, the highest paid consultant gets more than 10 times the lowest paid consultant. In certain departments, consultants earn more than a Secretary

rank officer." Besides, there is a section in the government which is of the view that training and up-skilling need to be encouraged within the government's rank and file, now that a Capacity Building Commission is in place.

Besides the 1,499 consultants, as many as 76 government departments have hired on contract 1,037 Young Professionals, 539 independent consultants, 354 domain experts, 1,481 retired government officers, and 20,376 other low-paid staff. The expenditure on these is, however, not available.

Last year on October 4, in the run-up to Budget 2024-25, *The Indian Express* had reported that the Department of Expenditure in the Finance Ministry had written to all departments and ministries and sought information on people working on contract stating this was "required for meaningful discussion for allocation of Budget under the Professional/ Office expenses/ Salary head."

The top six departments which have most consultants from external agencies working with them are: Health and Family Welfare (203), Rural Development (166), Agriculture and Farmers Welfare (149), Ministry of Housing and Urban Administration (147), Women and Child Development (112) and Road Transport and Highway (99). Together, they account for 876 or 58 per cent of the total 1,499.

Independent consultants and domain experts appointed by ministries and departments could be paid in the range of Rs 1 lakh to Rs 4 lakh a month.

Hon'ble PM/VP/HFM/IFHE(Lond)

WTO's WTO in Health Sector in India & abroad

① The 2 MBA's proposals are

(a) MBA (Health Facility Planning & Design) MBA (HFPD)

(b) MBA (Health Facility Engg. & Management) MBA (HFEM)

Highly interdisciplinary: rich course contents, comparable to best in USA, UK, Australia. No where in India.

② Envelop following contents of STAND ALONE Master Courses
Public Health 30% + Designing 20% + Technology 20% + Management 20% + Climate Change 5% + Ecology/Environ 5% Sustainability

③ Each Main Consultant + junior + staff required to research, integrate, document, develop application for projects etc

④ Each team of Expert will cost Rs. 1.5 lakh/pm chg + 1 lakh/pm 2nd p.o. 50
Thus 4 teams @ Rs. 3 lakh/pm for 12 months will cost 144 lakh i.e. 1.50 crore + 0.50 lakh for printing 150 copies

⑤ THUS 2 COURSES DETAILS APPROVED By AICTE/WTO/In Exports ARE THE GIFT TO PGZ/MOHFW/IFHE(London) NONE OF 40 National level Members of IFHE close this.
